Network video on mobile devices

Introducing the Toshiba Surveillix App. This simple mobile viewer lets you monitor live video from your Surveillix® recorders using a Toshiba Thrive tablet, an Apple iPhone, iPod Touch or iPad, Blackberry, or Android phone. It gives instant access to all your cameras on the go. It is available free at the iTunes App Store, Android Marketplace and Blackberry App World under the search term Surveillix.

- > View live video in quad or single camera mode (Android and Blackberry -single mode only)
- > Supports all Toshiba Surveillix video recorders
- > Works over 3G, 4G or Wi-Fi
- > Compatible with the new Toshiba Thrive tablet, Apple (iOS 3.1.3 or later), Android and Blackberry mobile devices
- > Maximum supported camera resolution is 2.0 megapixels

Simple setup
Enter your NVR information into the setup screen and you are ready to go.

Multiple views
Select up to four cameras to monitor at the same time or one full screen camera view.
