Explanation of programs:

First notification - learn about promotions and programs directly from Toshiba; eliminates hearing important news through the grapevine.

Partner website access - www.surveillexdvrsupport.com provides access to product downloads, training and more.

Virtual Installer program - set up an appointment with a highly skilled tech support representative to walk you through your install on the day of your install ~ this means a very smooth installation.

Product discounts & new product buy-in specials - receive special discounts on products and be the first to get in on new product buy-in specials.

Product certification training - become certified on Toshiba surveillance products. This is only offered to ProfitMAX resellers and their distribution partners.

Demo program - receive a discount on demo equipment - limited to 1 item per model number (subject to approval).

High quality sales leads - receive leads generated from Toshiba's marketing campaigns and reporting services.

Toshiba Security Reseller logo - receive the Toshiba Security Reseller logo to be used on your collateral, website, etc.

Priority technical support hotline - go to the front of the queue and receive a quicker level of service.

Expedited advance product replacement - eliminates completing an RMA form for every replacement and product replacement will be expedited.

Quarterly rebates - 2% for Gold Dealers, 4% for Platinum Dealers. Toshiba issues a credit to the ProfitMAX distributor and in return a credit is applied to the ProfitMAX reseller's account.

Discounts off Project Registration quotes - register your projects and obtain a quote via Toshiba's Project Registration and Quote Sheet and receive 10% off for Gold and 15% off for Platinum. Project Registration and Quote must be worth at least \$10,000.
